it helps

sulFadex **Clear Air**

odor-neutralizing concentrate is designed to be automatically sprayed over the top of odor-causing sources such as sewer lift stations, belt press areas and waste sites. The ultra-concentrated formula effectively controls vapor odors by chemically neutralizing them, not just masking them.

Clear Air is a cost-efficient and effective way to end odor complaints.

- Neutralizes odors
- Highly concentrated
- Light, pleasant odor remaining
- Cost effective
- Eliminates odor complaints
- Ideal for automatic spray application
