

# Scour

chemical biofilm degrader

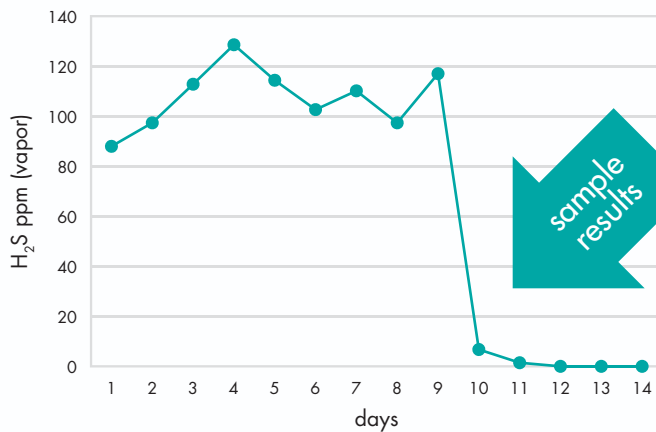

Gravity Mains

Force Mains

Lift Stations

Wet Scrubbers

Sludge Processing

where it helps

## sulFadScour

is used to initially "scour" mains or wastewater treatment areas containing excess biofilm that allows SRB (sulfur-reducing bacteria) colonies to thrive and produce sulfur base sewer gas, which blossom into dangerous and troublesome gases like hydrogen sulfide (H<sub>2</sub>S) and mercaptans.

### SCOUR

mechanical oxidizers  
chemical oxidizers  
nitrates  
pH neutralizers  
iron salts

how it compares

●	○	○	○	○	○	compact footprint
●	○	○	○	○	○	capital non-intensive
●	●	●	○	○	○	sludge-free
●	●	○	○	●	○	non-regulated
●	○	○	○	○	○	mercaptan-fighting

## 3-STEP odor-control strategy

pre-treat with  
**Scour**

maintain with  
**Commander**

monitor  
**Results**
